IN MEMORY

MRS. JEAN BENHAM, 1969-1982

The 1982-1983 school year was full of beginnings and endings. Butler participated in the new GMVC and took first in Wrestling and Boys' Track. It was also the first season for using the new field house floor after the water damage the previous season.

December 31, 1982 not only brought the end of the year, but also Mr. Harold Wherry's retirement as principal because of his heart surgery earlier in the year. Mr. Wherry's innovations and impact on Butler during his 18 years as principal are impossible to list, but course selection, resource centers, and the Memorial Day program are still most evident to every Butler student.

Mr. John Beckley, former principal at Smith, became principal with the beginning of 1983.

To replace Mr. Beckley, Mr. Jim DeArmond, Asst. Principal at Butler, moved to Smith leaving a vacancy at Butler. This position was filled by a new face from Kettering Schools, Mr. Sam Lickliter.

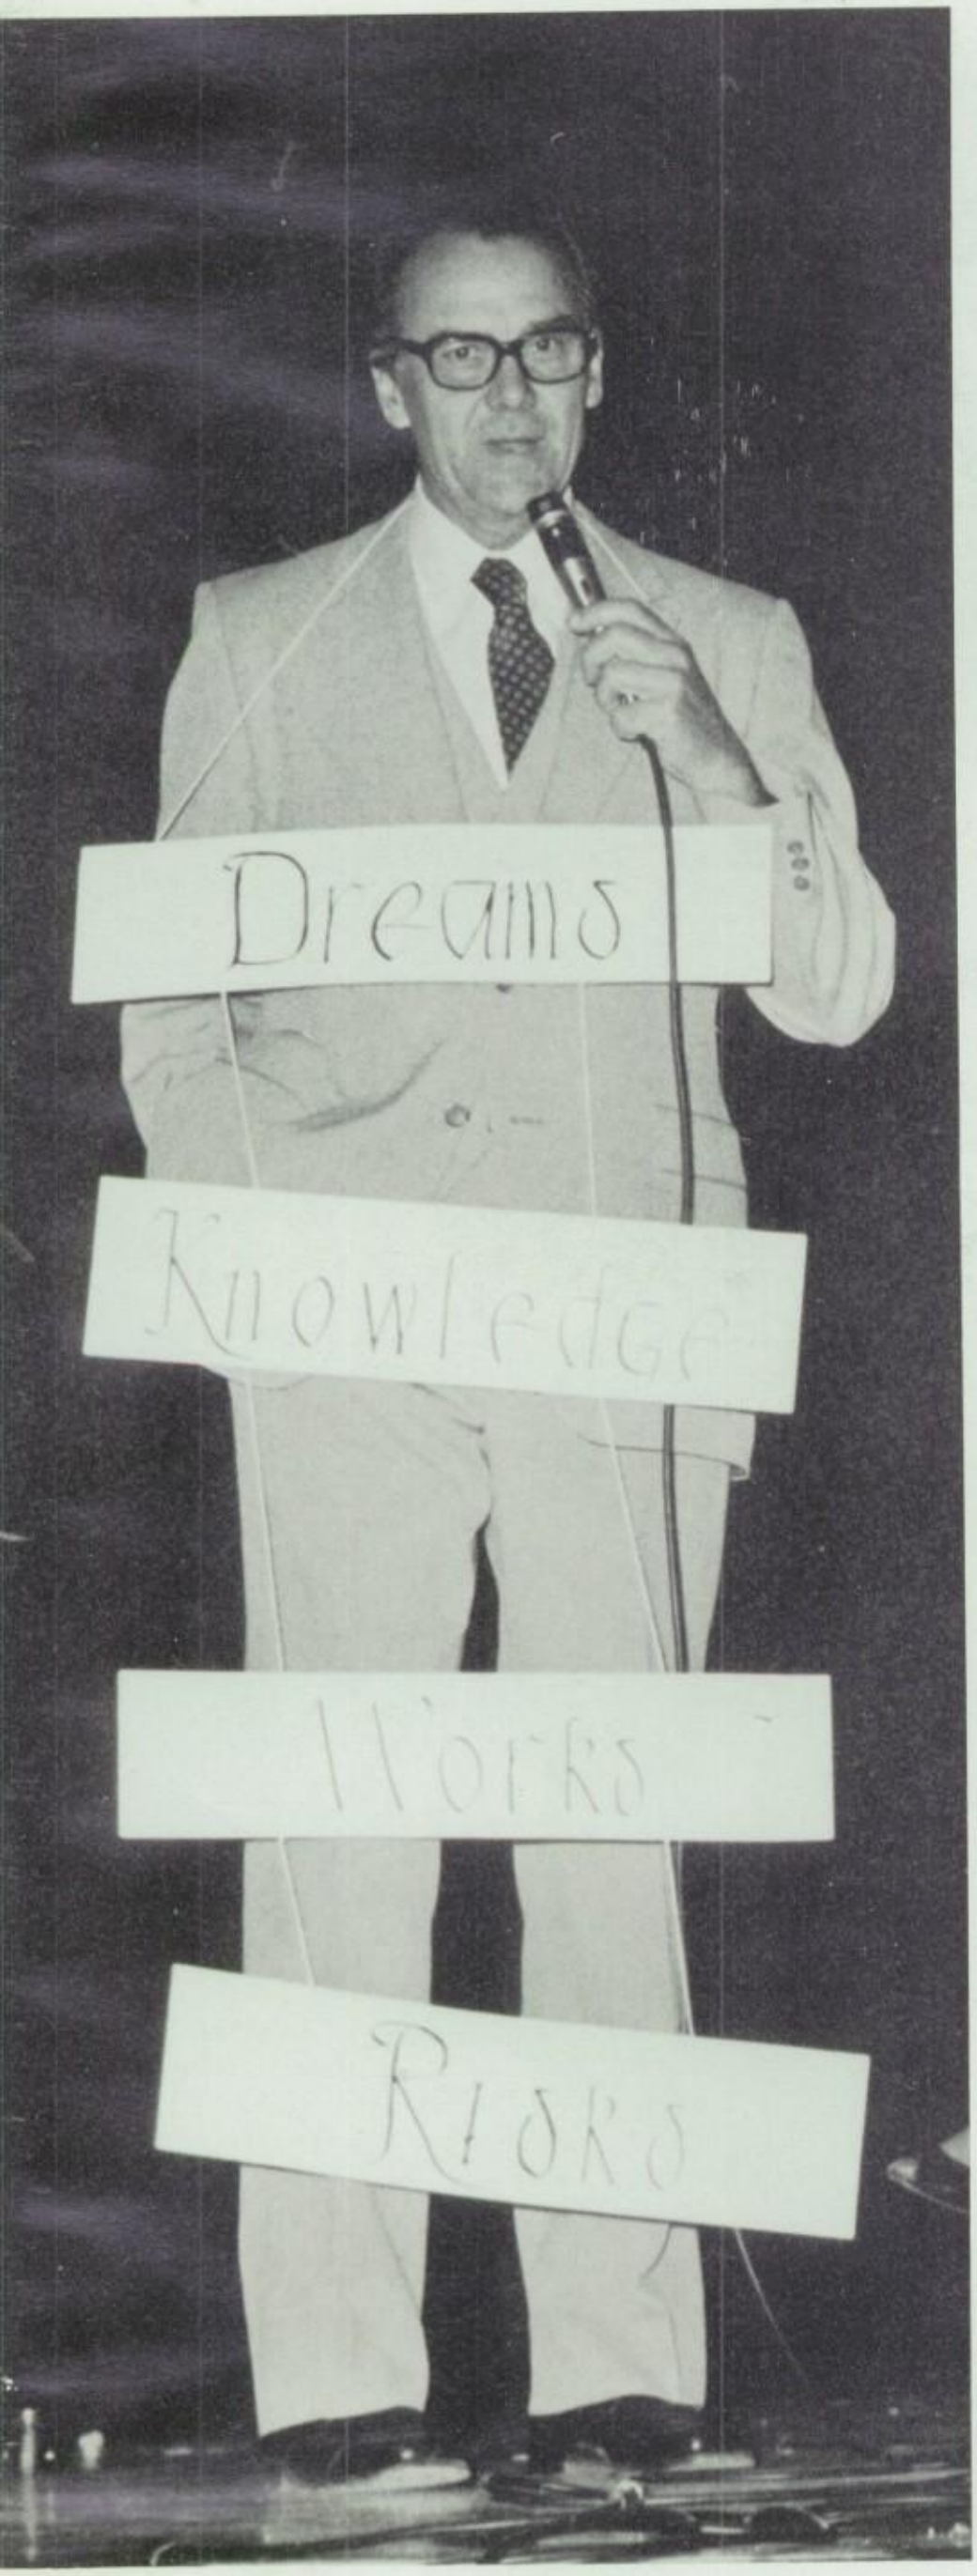
A tragic event marred the 1983 year with the death of Mrs. Jean Benham, Business Teacher for 13 years at Butler. She and her husband, John, former shop teacher at Butler, were in a fatal accident on New Year's Day.

Upon conclusion of the academic year, Mrs. Marjorie Irwin, Mrs. Jenny White, and Mrs. Jonny Davis announced their retirement. Of course, the end and the commencement of the Class of 1983 was significant for each of the individuals who will now begin to continue their accomplishments.

1982-83 was the first time Sophomores were required to take Grammar/Composition before the elective courses. This requirement was the first step in a broader competency based, minimum standard program. This was the first year also for the English Department to offer Advanced Placement courses.

The Airlog ended the use of the traditional 8½ X 11 book size and began the 9 X 12 book. In addition to the larger size, the staff increased the number of pictures in the book.

Other than Mother Nature providing a mild winter which stretched into June, the only other memorable ending was the parting of two friends who spent a year with us. Certainly, Butler and the Airlog Staff prospered from the presence of two "Swedes," Asa Nilsson and Stefan Peterson. They continued the international friendship which is an important tradition at Butler. Their return to Sweden will be the beginning of many stories about Vandalia, and they shall be missed by us here.



Thank you Mr. Wherry

Welcome Mr. Beckley

Hej da Asa and Stefan.

The Color Guard.

The Memorial Program was conceived to honor the young graduates from Butler High School who gave their lives in World War II 40 years ago. Butler's guest speaker was Colonel Donnie C. Coulson (above), the Army's Cincinnati District Recruiting Commander, who, during his speech, promised not to sign anyone up, but said that patriotic motives are very strong among those who are choosing military careers. Col. Coulson has been stationed overseas four times, including the Republic of Vietnam and Thailand. Among the many, many awards and decoration he has received, Col. Coulson is also a master aviator and parachutist. It was truly an honor to have Col. Coulson speak with us. Among the other activities of the fourth annual Memorial Service was a fine speech by Amy Heidenreich, John Kuhns, John Beckley, Ken Hayden, and prayers by Father Robert Monnin from St. Christopher's Parish in Vandalia. There was a procession of students carrying 80 U. S. and State flags, accompanied by color guards from VFW Post 9582 and American Legion Post 668. The Army squad from Huber Heights recruiting office presented a 21 gun salute and taps were played by Butler's Andy Swallow and Pete Eros. Thanks also goes to the Butler Band and Choir for a beautiful performance.

AVIATORS FINISH STRONG

The Butler Aviators played their 1st season in the new Greater Miami Valley Conference in 1982. The Aviators enjoyed a successful season. They played solid football the entire season against some of the areas best teams. The Offense started slowly but progressed very fast and finished the season very well. The Defense, as usual, was strong all season; only one team rushed for over 100 yards. The Aviators were well represented on the GMVC All League Team. Dave Mehall, Deron Upton, Cory Brusman, Mike Verdes, Bradd Bush, and Chris Davis were voted to the 1st team. Dave Clay and Doug Benedict were selected All League 2nd team. Chris Davis and Cory Brusman were selected team Dayton Newspapers, Inc., while Mike Verdes, Deron Upton, and Bradd Bush were named Honorable Mention.

The 1982 Reserve Football team enjoyed another very successful season. Their final record of 7 wins and 2 losses is a credit to Coach Jamie Brown, Coach Dave Wolfe and the entire squad. Defense was the big key in most of the teams victories as the teams 2 losses were by a total of only 4 points. Team defense was the name of the game with names like Ginter, Bogard, Hodge, Terry, Klawon, DeArmond, Berry, Patrianakos, Huggins, Mahan, and Wise leading the way. Offensively, Tony Mahan led the team in scoring and rushing. Patrianakos, Berry, Huggins, Fitzgerald, Trick, and Wise also dented the scoring column. RESERVE SOCCER FIGHTING SPIRIT

According to the coaches, Lenny Maenza and Jerry Beck, both reserve teams showed a big improvement from the beginning to the end of the season. "There is a lot of talent here," quoted from Mr. Maenza. Glen Middleton, Jeff Knoth, Mike Jones, Dan Eyler and many more from the gold team did a really good job. Unfortunately there was a lot of resistance for a successful record, it was two wins, six losses and two ties. The purple team was two wins, one loss and one tie. Both Maenza and Beck were very pleased with the season and they are looking forward to a good season next year.

VOLLEYBALL BUMPS BACK TO ACTION

This year the 1982 Varsity Volleyball team improved greatly as their league record was boosted to 7 wins and 7 losses, and their overall record was 10 wins and 12 losses. At the beginning of the season the lady Aviators, led by captains Beth Haap and Ronda Ringo, started their season very slow as they lost their first five games. Even though they lost to Greenville, an outstanding team, this was the best game of their season.

In tournament this year they lost to Fairborn Baker, the number one seeded team, 10-15, 5-15. They also had Julie Davis making the first team for GMVC, Apryl Crenshaw making the second team, and Vonda Morse making special mention.

The Reserve team showed much improvement as captains Lori Keithley and Gina Hall led them to victory. Overall, the 1982 Volleyball team has made a comeback in Butler Athletics.

VARSITY BASKETBALL

Zawadzki League's Best

The Varsity Boy's Basketball team knew of only one way to win — the hard way. Of the teams 16 victories, 10 of the wins were decided in the last three minutes of the game. Four of the five Aviator losses were by four points or less. Butler led the league for most of the year; however, after successive losses to Trotwood and Tecumseh, the Aviators fell to second place. Their 12-2 league mark placed them behind a talented Trotwood team. The Aviators were recognized as one of the top teams in the area. They were rated as high as number two in the Journal Herald polls for the area and at one time 21st by the Associated Press for the state. They were also given the number one seed for the Troy AAA tournament. Coach Ray Zawadzki achieved a milestone in his illustrious coaching career when he gained his 200th victory in a 54-51 win over Milton-Union. Third year letterman Mark Zawadzki had an excellent year as he led the Aviators in scoring, assists, and free throw percentage. Mark was named to the GMVC's first team and he was honored as the league's MVP. Senior Randy Schmidt led the team in field goal percentage and was named to the league's second team. Bob Gigax received the rebounding trophy as he led the Aviators in rebounding. Although the team failed to advance past the first round in tournament, (they lost 60-57 to Wayne), the season will long be remembered for the exciting games and for the team's spirit and togetherness.

The sign of **Aries** is called the Ram. It is the first sign of the zodiac. The ruling planet of Aries is Mars. Aries is the infant of the zodiac, a newborn baby. Ariens have a pioneering and adventurous spirit. When first meeting an Arien, they are friendly and always have an instant smile. In situations which an Arien dislikes, an impatient and restless character arises. They are simple minded and always know where they stand. The love of competition in speed and challenge are a strong trait inAriens. One important thing about them is that they are very honest and faithful. Ariens are fearless because they know of no dange: or risk too great. Some famous Ariens personalities are Bette Davis, Joan Crawford, Thomas Jefferson, and Charles Chaplin.

The sign of **Taurus** is called the bull. It is the second sign of the zodiac. They know a firm sence of values which no one can change or influence. Taureans are very possesive and do not like their territory to be invaded. They are country people who love their homes and call them castles. The noisy clatter of the city threatens to press in too close. Taureans make wonderful attorneys for they have an excellent sense of business and the ability to make money. A Taurus indeed has a bull's mind, a very stubborn one. They are very resentful to break routines or to lose something. The ruling planet of Taurus is Venus. Some famous Taurus personalities are Queen Elizabeth II, Orson Wells, Hitler, and Shirley Temple.

The sign of **Gemini** is called the twins. It is the third sign of the zodiac. Mercury is the ruling planet. A Gemini has a very changable personality. Their nervous energy is always hard to keep up with. Gemininans know where they stand, at least for the moment, although conservative people make them impatient. Immediate and sympathetic friendliness is a positive trait for which a Gemini is known for. Gemininans can do two things at once with less effort then they would have done with one thing. This refers back to the idea of the sign being called the twins. Gemininans find routines boring and unchallenging unlike Taureans. They love money, fame, and wealth and never quite seem to have enough of them. Some famous personalities are John F. Kennedy, Marilyn Monroe, Judy Garland, and Bob Dylan.

The sign of **Cancer** is called the crab. It is the fourth sign of the zodiac. The Moon is the ruling planet. Crabby is the exact word to describe the personality of a Cancerian. The fears of a Cancerian are usually well covered by a great sense of humor but they are still held within themselves. They can be easily hurt by a harsh tone of voice or a rough tone of voice. When asking a Cancerian a stupid question, one will probably get a snappy response. Their moods are so intense that they can make you feel them. A lesson taught to a Cancerian will be a lesson never forgotten. They never feel secure for security hides inside the soul of most Cancerians. Some famous personalities are John Quincy Adams, Helen Keller, Julius Caesar and Ringo Starr.

The sign of **Leo** is called the lion. It is the fifth sign of the zodiac. The Sun is the ruling planet of Leo. Leos will usually get the center of attention in a large crowd. They usually have a commanding voice and a stately bearing. Leos have a very strange effect on people. It is the knack for giving orders and having them followed. The love of teaching explains why so many Leos are educators, politicans, and psychiatrists. Wasting time is a definite dislike of a Leo. They say what they mean and are very self-assured. Although they have strong opinions, they are very forgiving. Having a Leo as a friend is a true joy and positively a real plus. Some famous personalities are Lucille Ball, Mae West, Bill "Count" Basie, and Napoleon Bonaparte.

Virgo The sign of **Virgo** is called the virgin. It is the sixth sign of the zodiac. Mercury is the ruling planet of Virgo. Being a loner stands out as a Virgo trait. They will measure every second of their time to it's full worth. Virgos are less social than others because they would rather be doing something useful and probably by themselves. Virgos are unquestionably dependable and sincere. They also always know exactly where they stand. A Virgo may criticize your statements with hair-splitting arguments which can drive a person wild. Although these arguments might seem harsh at first, they are meant to help you and not to hurt you. Being in debt is a strong dislike to all Virgos. Some famous personalities are Sid Caesar, Queen Elizabeth I, Sophia Loren, and Peter Sellers.

They never flinch with embarrassment or swell up with pride. Be on guard with all Scorpios; you will never know what they are up to. They are very honest and if you ask their opinion, they will give you the naked, brutal truth. In the very teeth of tragedy, a Scorpio's awesome inner strength will always save him. Some famous personalities are Johnny Carson, Marie Antoinette, Grace Kelly, and Katherine Hepburn.

The Sagittarian means well, but they sometimes jumble words and hurt other people's feelings. They are honest and they make terrible liars. Sagittarians love animals. You will always notice something childlike about the brave, optomistic Sagittarian. They are attracted to danger because they are challenged by it instead of afraid of it. Few people can resent a Sagittarian for long because they are so likable and free of harmful intent. They also tend to have a violent temper. Some famous personalities are Andrew Carnegie, Walt Disney, Joe DiMaggio, and Mark Twain.

That person who seems a million miles away mentally is probably an Aquarian. They have deep understanding which is why so many children love adult Aquarians. They do not have a very good memory but their power of concentration can be awesome. Aquarians are a curious mixture of cold, practicality and eccentric instability with a marvelous knack for calming people. THE MAN WHO CAME TO DINNER

The Man Who Came to Dinner proved to be a good show for training a lot of students for the musical **Once Upon a Mattress.** It provided stage experience for over 34 people and was easily the largest cast for a stage play over the last twelve years. The play featured Brian Court as Sheridan Whiteside, Amy Heidenreich as Maggie Cutler, Paul Morgan as Ernest Stanley, and Don Higgins as Banjo. Moreover, several students made their debut on the Butler stage: including Ben Dykes, Julie Hollars, Aaron Evans, and Deena Hardin. All of these people were valuable not only in this play but also in the musical.

. . . deliver those to one Brian Ct.

See what that dog did?

Like my hat?

. . . and would you please remove your coat.

Kuhns' school of air traffic.

Who put Superglue on my brush?

I do!

Those darn nose hairs!

Just give me a little!

Will you look at this phone bill?

Oh hurt me! Hurt me!

You found this growing in little Kenny's room?

Let's do Hamill camels.

Mrs. White, you are under arrest!

Oh, this darn reheumatism!

ONCE UPON A MATTRESS

Dancin' fool!

Dauntless takes to drinking.

The musical **Once Upon A Mattress** became an outstanding show because of cooperation between students, faculty members, and parents alike. Numerous hours were donated by not only the actors and actresses, but also orchestra members, choreographers, technical crew members, costume designers and seamstresses, artists, set constructionists, the printed program designers, ticket salesperson, the make-up crew, and directors. The talents of both the drama and vocal departments were combined to feature April Crenshaw as the Minstrel, Dave Williams as the Wizard, Cheryl Bibb as Lady Larken, Deena Hardin as Queen Aggravain, Paul Morgan as Prince Dauntless, Brian Court as King Sextimus, Don Higgins as the Jester, Ted Zavakos as Sir Harry, and Barb Elliot as Princess Winnifred. The tremendous success of the musical is best described on the back cover of the program as written by Kuhns, Mr. Pyle, and Mr. Leppla: "To Once Upon A Mattress' Cast, Crew and Orchestra: From the very first day that we started working on 'Once Upon A Mattress,' we have joined together as a family to help each other through the tough times and to share with each other the good times. Because of this play and our closeness, each of us have improved upon ourselves, whether it be on our artistic ability, our creative ability, or our ability of dealing with one another. We have proven ourselves capable of handling the many responsibilities imposed by putting on a musical of this caliber. Together we designed and constructed the sets and costumes, together we practiced and perfected our acting and singing, and together we made this musical come together. But most of all, together we grew into better human beings. From the very first day that we started working on 'Once Upon A Mattress', we have grown closer, and that alone makes this musical a success."

Curse the Queen.

No one is having any fun.

If you don't be quiet I'll poke all of your eyes out like this!

Eating and drinking at the same time.

5 o'clock shadow, Dave?

Red Rover, now?

"Oh, Mommy Dearest!"

"Guzzle it, Dee!"

He really jams.

Valley Guys.

"Oh Gee."

Hari Christna

I . . . I . . . I can.

I shouldn't have sniffed that fairy dust.

Dauntless, you nerd.

First you spin right . . .

Look at my pet fly!

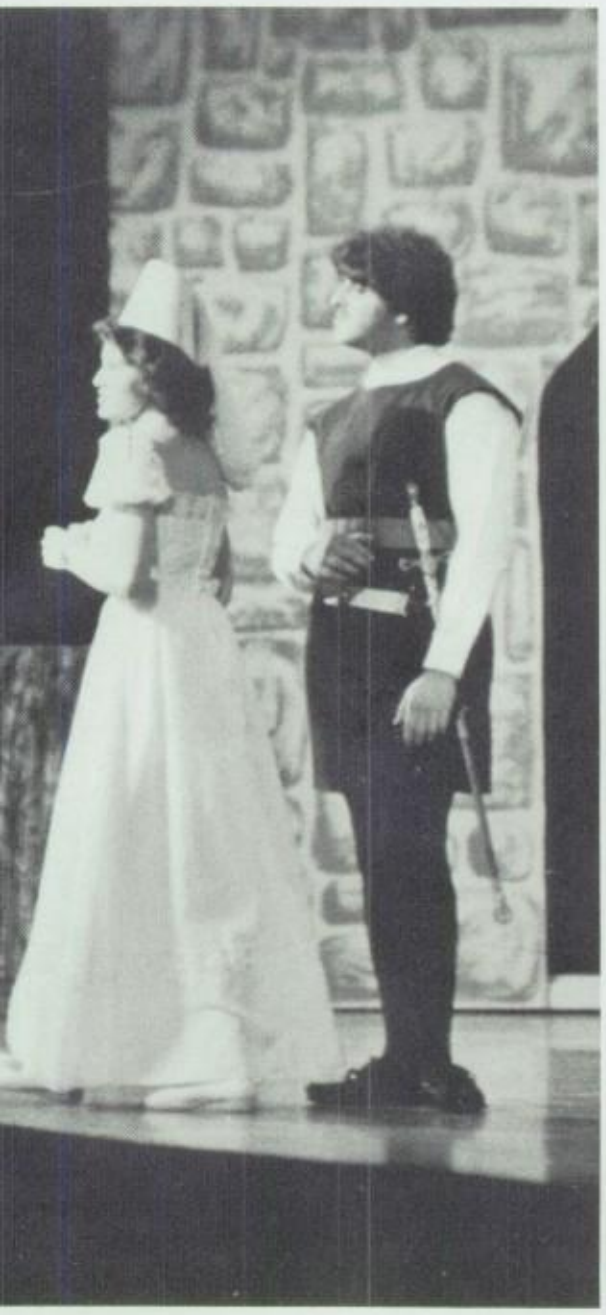
No papa, she's mine!

Matt is wired for sound.

"Baby Barbi Elliot."

Go team, go!

Have a drink on me?



Like your sword, Ted.

Not so loud please!

Look! It's the Easter Bunny.

A cold Hardin woman.

It's a ghost!

I'll never tell.

Dad, you look a little pale today.

Aries is the first sign of the Zodiac. Since it is the first sign, it represents birth. When you meet an Arien, visualize an infant. Aries is a person who is as fascinated with the world as a child is with his toes.

Because of their infantile characteristics, Ariens are fearless and straight to the point. Ariens are fearless because they do not know what to fear. They can do things without realizing danger. They are simple minded like an infant; therefore, they show exactly who they are.

Aries is represented by a ram. Many Ariens have features resembling those of rams. They have broad shoulders and postures that reflect their self-confidence. They have quick and capable movements and a mental process to match.

Taurus is the second sign of the zodiac. This sign is associated with a bull. And it should be because most Taurus people are as stubborn as bulls.

Taureans are passive in nature. They are not attackers; they are defenders. If someone starts to push or press them, they push back. Their passive nature keeps them around home a lot. They do not go out because it is too much of a bother. The only thing in the Taurean's behavior that is not passive is their demolish temper. Only as a last resort does a Taurian fly off the handle. But, watch out when it happens. Taurians have well proportioned physiques. Their upper bodies are usually muscular. They usually have dark hair, eyes, and complexions. They move gracefully, and their ears are small and close to their heads.

Gemini is the third sign in the zodiac. It is represented by twins. People under this sign have a dual personality, or at least it seems like that. They are really two people rolled into one.

Geminis are fast thinkers. They are quick witted and hard to pin down. They do not like to show their true self because it is always changing. They can hide themselves by using their mental agility. They are very flexible; they can skip around from subject to subject very easily. They can handle more than one thing at a time. If you try to reveal their real personality, you will only become confused.

Geminis are usually slender, agile, and a little taller than average. They usually have hazel, blue, green, or grey eyes. Their complexion is usually pale, except in the summer when they tan easily. Along with these physical features Geminis can be recognized by their fast talk.

Cancer is the fourth sign in the Zodiac. It is represented by a crab. People under this sign tend to be like a crab. They act as if they have a shell around them, and they can draw into it when danger arises.

Cancerians are recognizable by their changing moods and their hiding behavior. They are easily hurt, and when they are, they pull themselves inside their shells and hide. Cancerians tend to be pessimistic and crabby at times. They also never come outside their shells and show themselves completely. They use their shells to hide from outside and to hide their inside.

Cancerians look like crabs also. They can have bony structures and long arms and legs. They can be a little top heavy with broad shoulders. They can even waddle slightly when they walk fast.

Leo is the fifth sign in the Zodiac. It is represented by a lion. This lion is not a big fercious animal, but a big, proud cat.

Leos think they are the rulers of the world. Do not tell them that they are mistaken because it will break their big, lion hearts. Leos are proud egotistical people. They love to give advice, but they do not like to receive it. Leos have set ways of doing things, and they do not like to alter those ways.

Leos look like big, lazy lions with nothing to do. When they move, they glide like a cat, and they seldom talk fast, run, or even walk fast. They take life at their very slow, royal pace. Their hair is usually dark or reddish blonde, and it usually resembles a mane.

Virgo is the sixth sign in the Zodiac. It is represented by a virgin. A person who is pure in every catagory, a perfectionist.

Virgos are very particular with everything. They always want to look perfect. They worry constantly; they never relax for a minute. Virgos are not too social because they are always busy organizing.

Virgos are usually built wiry. They are usually small, but they have exceptional strength for their size. They are fussy about their health and diet, and because of their need for perfection they are often nervous.

Libra is the seventh sign in the zodiac. Libra is represented by a scale, and this scale is never balanced. Libras hate to be rude, but they love to argue. They love to be around people, but hate crowds. As the scale swings up and down, the Libra's nature swings also. Through all their changing, the Libra has some constant characteristics. They are intelligent, pleasant, sulky, and gullable. Libras have only a few distinguishing physical features to help in identifying them. Their faces and knees occasionally have dimples. Their hair is usually curly, and their laugh is usually light and delicate.

Scorpio is the eight sign in the zodiac. It is represented by a scorpion, a nocturnal creature that attacks and paralyzes its prey. To recognize a Scorpio look for a strong willed, egotistical person who speaks his mind and states the truth regardless of the consequences. He controls his emotions, and he seldom blushes. His face rarely changes from its constant blank expression. Scorpios are easy to recognize from their intense, piercing eyes. Their hair is usually dark, and their eyes are usually green, blue, or brown. They also have hairy arms and legs.

Sagittarius is the ninth sign in the zodiac. It is represented by an archer. This sign is hard to compare with its symbol. Sagittarians are intelligent, fearless, friendly, and tactless. They tend to stick their feet in their mouths. They do not try to put people down; it just happens. Sagittarians are optimistic and entertaining. They are either tall and proportional or short and sturdy. They love sports and the outdoors. They have graceful movements, but at times they are very ungraceful. They occasionally trip and fall. If you ever need a truthful answer, go to a Sagittarian. They always tell the truth and sometimes too bluntly.

Capricorn is the tenth house in the zodiac. It is represented by a goat that is always climbing. Capricorns are usually climbing the ladder of success. Their movements are slow, but they seldom fall. They have a very serious manner about everything they undertake. They usually do not stick their nose in business that is not their own. Captricorns tend to be a little egotistical, but they do not boast. There tends to be more Capricorns that are spectators than participators. If you are around a Capricorn a lot, you will notice that they give an impression that they are rooted to a spot. You will never see them running around carelessly. Their hair is usually straight and dark, and their eyes are usually dark also. Their skin tends to be more sensitive than their emotions.

Aquarius is the eleventh sign in the zodiac. It is represented by a water bearer. Aquarius nature changes about as much as the ocean tides. One minute they will want to be in a crowded room, then the next minute they will want to be completely alone. Aquarian people tend to be nonconformists. They are always thinking of the future. At times Aquarians give the impression that they are idiots, but just the opposition is true. This sign is known as the genius sign because of all the intelligent people under it. Aquarians seldom use their intelligence to give advice unless requested. They seldom take anybody's advice except their own. Their hair is usually straight, silky, and light brown or blonde. Their eyes are green, blue, or gray. They are usually a little taller than average, and their complexions are usually pale.

Pisces is the twelfth and last sign of the zodiac. It is represented by a fish. Because it is the last sign, it is a combination of all the signs put together. Pisceans tend to be conformist; they do not fight the stream, rather they swim along with it. Pisces are not greedy people, in fact, they are seldom concerned with money. They are very compassionate people. It is hard to arouse any emotion from a Pisces, but occasionally their temper will flare. Piscean people move around a lot with flowing movements. Their bodies are usually small and dainty or large and broad. Their skin is soft, and their hair is fine. They also could have a dimple here and there.

Procrastination is the last sign of our zodiac. It is represented by a lazy, slothful person who could care less about turning in a senior picture on time. Procrastinators have very limited physical and mental activities. They can usually be found lying in front of a television. They never do more than what is necessary. Their favorite sayings are, "I'll do it later." and "I don't have time right now." Procrastinators come in all shapes and sizes. Everybody has a little bit of this sign in them, but these people have it as their dominant sign, although it need not be a permanent trait.

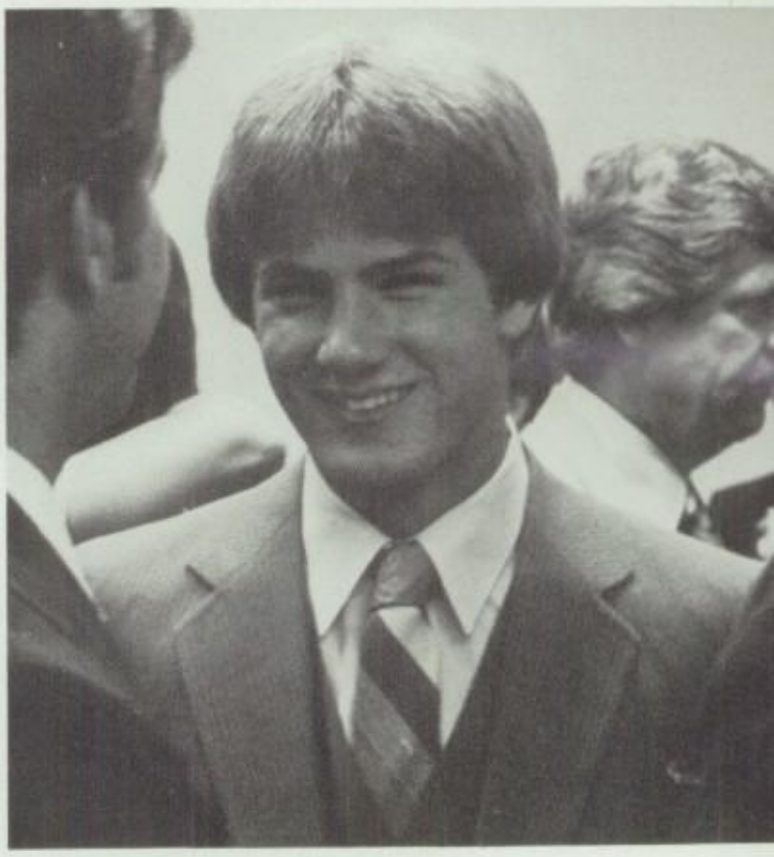
Baccalaureate

The 10th Annual Baccalaureate Service was a very warm and moving experience for the seniors, their families, and friends. The service was held at the First Baptist Church and was sponsored by the Vandalia United Methodist Church and other area churches. A beautiful flute duet performed by Patty Hawke and Steve Reed opened the service. The responsive reading, Matthew 5:1-10, was presented by the Senior Class President, Joe Pax. Amy DeCamp read the first scripture, 1st Corinthians 13, and Beth Dean read the second scripture, Psalm 111. Solos were performed by Barb Elliott and Julie Hollars. Barb sang "We've Only Just Begun," and Julie sang "Only One Life." Although graduation is a very joyous occasion for many people, the sadness was visible in everyones face. Laura Bretz, Jill Geiger, Paul Morgan, and Charlena Weaver gave the prayers in the service. Each prayer represented a different aspect of their lives: one for the Senior class, one for school, one for the parents, and one for the future. Other speakers were Rev. Ed Tutwiler and Rev. Paul E. Chastain. The music was played by the organist, Jack Kelley. The Baccalaureate contained happiness, sadness and almost every emotion possible.



I made it.

This tie is choking me.

Hi, I'm Julie Shirk.

Do I have any hair out of place?

No, how do I look Fred?

We're starting our own singing group.

I can still see seven cookies.

Mr. Reed can't see me here.

Does this mean I can't graduate?

Who said you dress like me?

Who has the whitest teeth?

I feel so much better.

Commencement

As parents, family, and friends watched the ceremony at U.D. Arena on June 2, 358 Butler High School seniors graduated. The class of 1983 laughed, cried, and reflected as members of the class of 1983 presented their speeches and songs. Joe Pax, the class president, gave a wonderful speech on the class of 1983's future. Valedictorian Elaina Weaver, in an original poem, reminded the class for the need for gratitude. Salutatorian Brian Court spoke on the mediocrity of education and encouraged members of the class to rise above mediocrity. Bradd Bush performed "As the Eagle Flies," and Tammy Powell sang "Hands of Time."

Overall, Commencement, spotted with bubbles and a white mouse, was a well-organized and well-presented program by the class of '83.

AMERICAN HISTORY

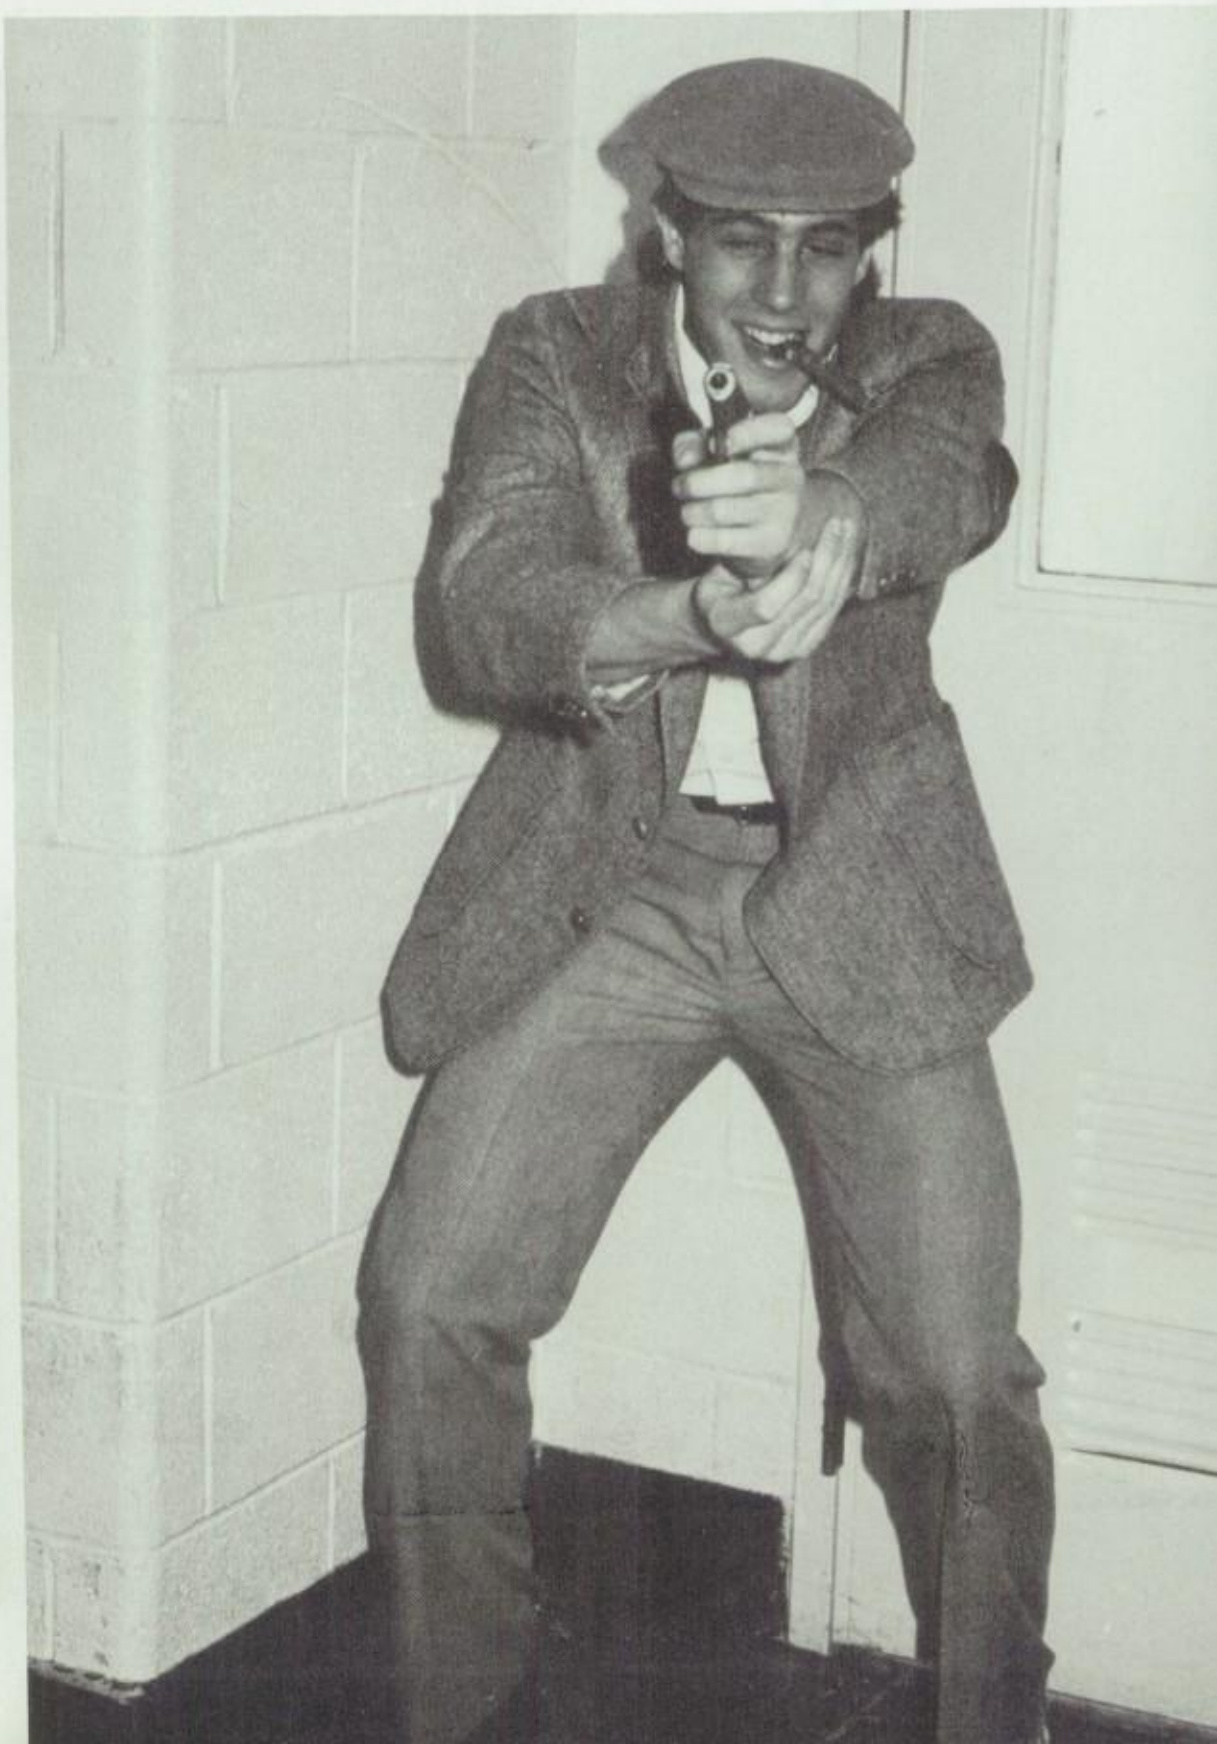
This year's Junior class had a typical year. The "M" and "H" gave the class always something to laugh at. It seemed to be a bad year for the presidents though, on separate occasions a different president was taken. In trying to get them (presidents) back, Maenza and Hathaway gave difficult quizzes until they were returned. So for a while it was pretty rough. For one of the annual activities, the Junior class dressed up as if they lived in the 1920's.

Should I shoot

Oh boy! Look at the guns, kids.

People paying attention?

Who's the President



Shake your booty.

The next Mr. Shank.

Maenza, pickin' and a grinnin'.

Come up and see me sometime.

What about my cigar.

Cindy, we thought you were a nice girl!

The gay 20's.

MOCK WEDDING

On April 21, 1983, Pamela Lee Bond and Freddy Bentley were hypothetically wed at Butler High School. Also wed were, Cathy Sue Turvene and Timothy J. Nightwine. It was a beautiful wedding with the winging of "Endless Love" by Julie Hollars. The reason for this hypothetical wedding, was to give the Lifestyles class at Butler High a chance to be involved in a wedding. By having this wedding the students could fully understand what all is really involved in the performance of a wedding. Officiating the weddings were Mr. Kuhns. After the wedding, the class also had a reception in the Lifestyles room.

Did you use close-up?

I'm not going through with it.

"I had a busy weekend!"

"She said yes!"

Are you reading that right?

"You're the Groom."

The wedding party.

"You're not my dad."

Julie Hollars at her best.

Next to be Bride and Groom.

NATIONAL HONOR SOCIETY

The Aristotelian Chapter of National Honor Society has been more actively in the school this past year. It has sponsored such activities as a tutoring program, cookie-gram sales, and Honor roll certificates. The members have added much to the chapter, and have certainly upheld its motto: "Striving for Excellence."

Will the real members please stand.

DECA

I believe in the future which I am planning for myself in the field of distribution and in the opportunities which my vocation offers . . .

In October of the 1982-83 school year, 45 Butler students were inducted into DECA at a candlelight ceremony in the auditorium. Each student's parents were invited and the students gave a slide presentation explaining Distributive Education to the parents; what a DECA day is like, the activities involved during the year and the value that DECA is to each of the students. On these two pages are pictures of the October Initiation of which started a fun and fulfilling year.

Take the DECA challenge!

I believe in fulfilling the highest measure of service to my vocation, my fellow beings, my country, and my God that so doing, I will be rewarded with personal satisfaction and material wealth . . .

Butler's DECA did very well. In the district competition in March out of 12 schools, Butler had the most points and won first and fourth in the Outstanding Chapter. They picked up seven first places out of the 15 categories and placed in every one of the categories. The first place winners are: Dave Clay, Fran Brashear, Fred Tressler, Jodi Pavka, Amy Ginn, Sarah Loftis, and Stefanie McCloud. All of the first and second place winners will compete at the State Competition in Columbus and the winners of that will be on their way to the Nationals in New Orleans. Congratulations, DECA, for a very fulfilling year!

ARTS AND SCIENCES

Struggling through science and enjoying art, many students still have developed a background that will be remembered for a long time. Science, which less than half the students at Butler take, is a very demanding subject. One of the most popular science courses is chemistry. And most of the people who take it are juniors. Chemistry is taught by Mr. Shank. Anyone taking chemistry must attend three lectures plus five labs a week. Even though the course is demanding, students receive 1¼ credits.

Physics, another popular course, is taught by Mr. Brewer. Throughout the year topics such as velocity, work, force, and heat are explained. The pictures at the right show students demonstrating force and also the Van de Graaff generator. Also, a minority of students take physiology, which is taught by Mrs. Moore.

Besides science, art is another interest of students. Miss Gille and Mr. Smith teach the art courses at Butler. Drawing, painting, design, and photography are taught by Miss Gille. Pottery, wheel throwing, sculpting, and jewelry are taught by Miss Gille. Pottery, wheel throwing, sculpting, and jewelry are taught by Mr. Smith. All students involved in these classes enjoy themselves plus learn a great deal.

As a result, both science and art courses provide a cultural background for the students at Butler High School.

SHAKESPEARE

During the month of April, The Shakespeare, Advanced Drama, and Senior and Junior Advanced Placement English Classes were visited by a Shakespearean actor, Bernie Canepari, and actress, Corrine Dorer, from the Great Lakes Shakespearean Company. Bernie and Corrine led the students through parts of **Hamlet** in contemporary English, making Shakespeare easier to understand. From there the Elizabethean dramatization was more fully understood and appreciated. They also led the groups in improvisations, situations where the audience gives the actors the subject, character, and situation to act out. The need for physical and mental conditioning was demonstrated continually. As a learning experience sponsored by the Ohio Arts Council, Butler students profited from this experience by the learning and the love.

CHORAL CONCERTS

This year's choral concerts were a big success. Aviation and Concert Choir, under the supervision of Roy Pyle, performed at the fall and Christmas concerts and will perform at the Spring Concert in May. Aviation did many popular songs during the fall concert and Concert Choir performed many interesting songs. During the Christmas concert the combination of Aviation, Concert Choir, and Butler Band was used in the production of the Hallelujah Chorus. The rest of the songs showed the true spirit of Christmas. All in all this year was good for the choirs.

The predominately senior 1983 Airlog Staff affected space by increasing the size of the yearbook to 9 x 12, providing additional picture and copy space. The size increase meant a price increase, but by taking the athletic calendar and selling more advertising, the increase was not passed on to students. The 1983 Staff continued the tradition of Swedish influence begun by Johan with exchange students Asa and Stefan contributing ideas and insight. Completing a book is hard work and takes time, but the 1983 Staff played hard — sometimes harder than it worked. With the many diverse and strong personalities, competition, control, and winning arguments monopolized a great deal of time. Recognizing each student as an individual is a role of education and did not disappear because someone became an Airlog Staff person. Hopefully, each staff member learned to handle their individuality in a positive manner and helped to reflect that positiveness in this book.

BUTLER

On the previous 311 page, we, the Airlog staff, dealt with the past, present and future. We captured the present and placed it in this book for a reminder in the future of the past. Hopefully, our presentation of the 1982-83 school year has a resemblance to your picture of it. If it does and it can bring the past back to feel like the present then this book has been a success. We hope that this book brings pleasant thoughts of memorable events to everyone.

Cindy,
To the Bestest
neighbor I ever had!
To bad were always
too busy too talk like
we used to. Those talks
were great. Hope you'll
always be somewhere on
Brantford Rd. cause I sure
as well will be there
all my life! Take Care
& Be Good! Love Di

Cindy,
I'm glad we have become
friends together so
quickly. I know we can
be open with each other
about anything. I want you
to know that I'll always
be there for you.
Love ya,
Beth

To Cindy,
It's been a pleasure knowing you
these past few years. I'm glad
we've become friends. Always
remember that I'll be there
for you.
Good luck in the future, you'll
be a great success.
Stay strong.
Love,
John
